A Novel Approach to Understanding Patient Safety Culture from Medication Incidents

Program Abstract:
This workshop teaches healthcare professionals how to use medication incident reporting as an indicator to monitor patient safety culture within their organization. Participants will learn fundamental principles of medication incident reporting and patient safety culture. These concepts will be integrated to introduce a novel tool called the Medication Safety Cultural Indicator Matrix (MedSCIM), which is a Qualitative Assessment Scale (QAS). MedSCIM was developed to measure patient safety culture in healthcare settings. This interactive workshop uses hands-on activities to teach participants how to use MedSCIM. In the end, participants will become confident using MedSCIM to support a positive patient safety culture.

Participants will be asked to bring in 10 – 20 medication incidents (de-identified) from their practice in order to conduct the hands-on activities. Through the application of the MedSCIM, participants will have the opportunity to integrate their learning through hands-on analysis and interpretation of incidents from their own practices using an innovative approach.

Learning Objectives:
1. Understand the potential for misinterpreting medication incident reporting in supporting patient safety initiatives
2. Review current methods to measure patient safety culture
3. Recognize current gaps in measuring patient safety culture
4. Describe the role of medication incident reporting in measuring patient safety culture
5. Apply a novel assessment tool to measure patient safety culture by analyzing medication incidents

Audience:
Previous participants of the ISMP Canada Multi-Incident Analysis Workshop, Pharmacy directors, risk managers, patient safety officers, medication safety officers, and other healthcare providers seeking to enhance their ability to act on medication incident reports.

Location:
ISMP Canada
Medication Safety Learning Centre
4711 Yonge Street
(Procter & Gamble building)
Toronto, ON M2N 6K8
Tel: 416-733-3131 Ext. 236

Program Summary:
• Connecting medication incidents with safety culture
• Using a novel technique to analyze medication incidents
• Hands-on practice

Cost: $500 + HST
(enrolment is limited to 8 attendees)

Workshop Level: Intermediate
(assumes basic knowledge of human factors engineering principles and systems-based approach to medication safety, previous experience with medication incident analysis preferred)

Further Information:
Telephone: 416-733-3131 Ext. 236
Toll Free: 1-866-544-7672

REGISTRATION INFORMATION - Section 2 of 2 (Please print clearly)

Course Registration Options
This workshop is complementary to the Multi-Incident Analysis (MIA) Workshop, which will be offered the day before this workshop. Participants are encouraged to attend both, and may be entitled to a discount on the cost of this workshop; the various pricing options are outlined below.

Please note the following:
- The cost of the MIA workshop remains the same ($500 + HST) in all cases.
- Attendees wishing to register for both workshops can do so on this form, and do not need to complete the registration form for the MIA workshop separately.

Original workshop costs:
- Multi-Incident Analysis (MIA) Workshop: $500 + HST
- Closing the Loop on Medication Incident Reporting: The Importance of Safety Culture (MedSCIM) Workshop: $500 + HST

Please check off the option that is applicable to you:

CSHP (Canadian Society of Hospital Pharmacists) members:
Entitled to 50% off the cost of the MedSCIM workshop, regardless of registering for one or both workshops.
- Attending both workshops: ($500 + $250) + HST = $875.00
- Attending MedSCIM Workshop only: $250 + HST = $275.00

Previous MIA attendees registering for MedSCIM workshop:
Entitled to 15% off of the cost of the MedSCIM workshop.
- Attending MedSCIM workshop: ($500 x 15% off) + HST = $480.25

All other workshop attendees (i.e. first time attendees to either workshop, non-CSHP members):
If registering for both workshops, attendees are entitled to 15% off of the cost of the MedSCIM workshop.
- Attending both workshops: ($500 + $425) + HST = $1045.25
- Attending MedSCIM Workshop only: $500 + HST = $565

*Please note that ISMP Canada reserves the right to verify CSHP membership with CSHP.

Course Registration Fee (Enrolment is limited to 8 attendees)*

Total payable: $__

* ISMP Canada reserves the right to cancel or re-schedule the workshop if minimum enrolment is not reached

Method of Payment
Cheques are payable to “ISMP Canada”. Registration must be accompanied by payment.
- Cheque
- VISA®
- Mastercard®

Name of Cardholder:

Credit Card #: Expiry Date:

Signature: GST Registration #898242219

Cancellation Policy:
Requests for cancellations or refunds must be submitted in writing to ISMP Canada prior to Thursday, June 5th, 2014; cancellations will not be accepted after this date. A $75.00 cancellation fee will apply.
ISMP Canada Workshop

Closing the Loop on Medication Incident Reporting:
The Importance of Safety Culture

Thursday, June 12, 2014
9:00 a.m. - 3:00 p.m.

Location: ISMP Canada, Medication Safety Learning Centre
4711 Yonge Street (Procter & Gamble building)
Toronto, ON M2N 6K8

AGENDA for Workshop

**A.M.**

9:00 – 9:15 Welcome and Course Outline

9:15 – 10:15 Background to Medication Incident Analysis and Patient Safety Culture

10:15 – 10:30 Break

10:30 – 11:30 Developing a Novel Approach to Analyzing Medication Incidents and Understanding Safety Culture

11:30 – 12:30 Lunch

**P.M.**

12:30 – 2:30 Hands-on Practice

2:30 – 3:00 Wrap-up and Conclusion
