Incident Analysis Framework: Train the Trainer Workshop (Exclusively for PSEP – Canada Trainers)

Thursday, October 1, 2015
8:30 a.m. – 4:30 p.m.

This one-day workshop is designed for PSEP – Canada Trainers. It will provide them with the tools to teach the Canadian Incident Analysis Framework in their organizations. The Framework enhances patient safety by supporting organizational learning, quality improvement and improving the success of incident analysis.

Outline:

1. Incident Analysis Framework overview
2. Analysis Process: Comprehensive and Concise
3. Analysis Process: Multi-Incident
4. Analysis Process: Developing and Managing Recommended Actions

Learning Objectives:

By the end of this workshop, participants will be able to:

- understand the key components of the Framework,
- understand the analysis process including the different methodologies and developing and managing recommended actions, and
- be able to use the Framework to support organizational learning, quality improvement and improve the success of incident analysis in enhancing patient safety.

Audience:

Patient Safety Education Program -
Canada (PSEP – Canada) Trainers
