

## ISMP Canada Workshop

# BPMH Training for Pharmacy Technicians

Understanding the hospital pharmacy technician's role in the medication reconciliation process

This one-day interactive workshop provides hospital pharmacy technicians with fundamentals of medication reconciliation (MedRec), hands-on practice in conducting a Best Possible Medication History (BPMH) interview and documenting the necessary components of a BPMH.

### Program Abstract:

MedRec is a formal process to ensure communication of accurate medication information throughout a person's healthcare journey. The BPMH is the cornerstone of MedRec. This one-day interactive workshop is designed to prepare hospital pharmacy technicians to collect a BPMH in the context of the MedRec process in an acute care setting. Whether you are new to MedRec or are a seasoned MedRec technician, this workshop will give you a fresh perspective, new ideas and tools that you can start using right away in your practice.

### Learning Objectives:

On completion of this workshop, participants will be able to:

- Explain the role of MedRec as it affects patient care
- Understand where and how MedRec takes place
- Understand the role of the BPMH at all care transitions
- Describe the process of completing a BPMH
- Understand the benefits and limitations of various sources of a patient's medication information

### Audience:

Hospital Pharmacy Technicians

### Workshop Level:

Novice to Intermediate

### Location:

ISMP Canada  
4711 Yonge Street  
(Procter & Gamble building)  
Toronto, ON M2N 6K8  
Tel: 416-733-3131 Ext. 0

### Time:

9:00 a.m. to 5:00 p.m.

### Cost:

\$400 per person, plus applicable taxes

### Further Information:

Telephone: 416-733-3131 Ext. 0

Toll Free: 1-866-544-7672
